

This month, The Lanitis Newsletter completes 6 years of existence and provision of information. It is with great pleasure that we receive comments and suggestions from the staff of Lanitis Group companies who are updated about the Group through the Newsletter and, at the same time, give feedback on its content.

One of such suggestions, was to create and distribute the Newsletter in the English language as well, for fellow staff members whose first language of communication is not Greek. Therefore, from this issue onwards, the Newsletter will be distributed to the Lanitis Group staff, both in Greek and English.

Antonis Papas
Marketing and Communications Manager Lanitis Group

Social contribution activities by the Evagoras & Kathleen Lanitis Foundation

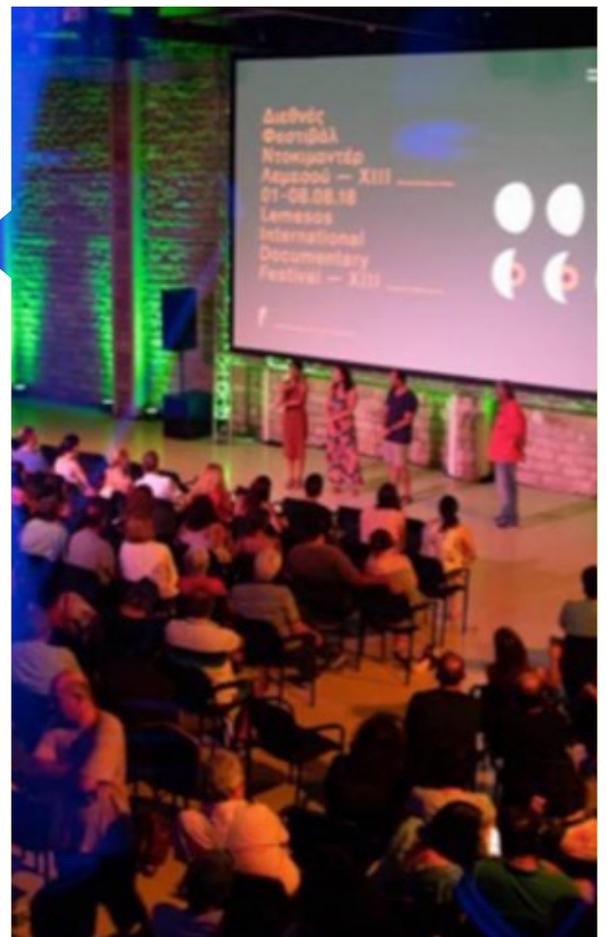

The Evagoras & Kathleen Lanitis Foundation continues its activities within the frame of Corporate Social Responsibility (CSR) on behalf of all Lanitis Group companies, as an effort to contribute to society as well as to inspire other companies to follow the same direction. Within this context, each year, the Foundation strives to the best of its resources to substantially support sectors in need such as health, education and culture.

In addition to its other activities, this year, the Foundation supported two major events over the past two months:

1. The Foundation was the main sponsor of the 12th Annual Corporate Social Responsibility Conference organized by IMH, which is the largest gathering of professionals in the field with mission to inform about domestic and international CSR and Sustainable Development Practices.
2. It supported the organisation of the International Documentary Festival, which took place for the 14th consecutive year, and presented some of the most creative Cypriot and international documentaries at the first nationwide screening. The Festival was held from the 1st to the 8th of August 2019 at Lanitis Carob Mill and hosted documentary films on topics that define and influence the lives of the contemporary citizen of the world.

Earlier this year, and in addition to the above CSR actions in the field of education and culture, the Evagoras & Kathleen Lanitis Foundation proceeded with several other actions aimed at supporting the health sector too. Specifically, the Foundation sponsored the financing of the installation of a photovoltaic system at the Cyprus Anti-Cancer Society's Evagorion Palliative Care Centre in Limassol.

The Evagoras & Kathleen Lanitis Foundation is a non-profit organization founded in 2001 that aims to contribute to the community, in different sectors such as health, education and culture. The Foundation is the "vehicle" via which the Lanitis Group and its subsidiary companies are contributing to the society through a specific plan of Corporate Social Responsibility (CSR) activities.

International prestigious award for Carob Mill Restaurants' Artima Bistro

Excellent news and a great honour for Carob Mill Restaurants this past July, upon the announcement of the winners of the 4th annual World Luxury Spa & Restaurants Awards, during a glamorous event in St. Petersburg, Russia. That was the fourth consecutive year that the specific event was organised, and more than 200 guests flew in from around the world, representing luxurious spas and restaurants from more than 90 countries.

The Global Award in the category of Mediterranean cuisine was awarded to Carob Mill Restaurants' Artima Bistro. It is worth mentioning that this was the first time that a restaurant from Cyprus brought home a Global award in this category since this initiative began in 2016.

"The most coveted awards are the Global category awards" says World Luxury Awards Brand and Events Manager, Michelle Creus. 'Many factors play a role in determining the winners – brand, location and overall guest satisfaction as feedback via online reviews among other. This year, the Awards focused on unique design with a touch of classy elegance'.

Castle Residences: Unique Apartments in the sea of Limassol Marina

Castle Residences, the pioneering, luxury apartments complex in Limassol Marina, built on a private island, in the heart of the marina, surrounded by the sea, is expected to be delivered in September 2020, being the final phase of residential development in Limassol Marina. The complex includes two, three and four-bedroom apartments and maisonettes, with covered and uncovered terraces or sundecks. Located at a privileged location very close to the superyachts, just a few steps from Limassol Marina beach, these luxurious properties are the only apartments in Cyprus built in the sea, offering stunning 360° views of the Mediterranean, the marina and the cosmopolitan seaside town of Limassol.

Only accessible via a private bridge and backdrop of clear blue water and clear blue sky, the luxurious and spacious apartments of Castle Residences in Limassol Marina combine a unique sea lifestyle, just a few minutes away from the city center of Limassol. Owners will benefit from state-of-the-art facilities such as swimming pools, private underground parking spaces, storerooms, 24-hour security, concierge services, rental and property management and privileged berths adjacent to the island where the apartments are built. They will also have direct access to the restaurants, shops, spa, fitness center, cultural center and other services offered within the marina.

Dividend Distribution by Amathus Public

According to an announcement sent to the CSE by Amathus Public, the Company will distribute a total dividend amount of € 1.084.891 from the 2017 profits to its shareholders.

The Company's announcement notes that the Annual General Meeting approved the Company's audited financial statements for the financial year 2018, as well as the Management Report for the financial year 2018.

Another major infrastructure project by Cybarco Contracting

The construction works on the West Limassol Wastewater Treatment Plant, commenced last month by the Joint Venture Kruger A/S and Cybarco Contracting Ltd.

This is the second treatment station of the Limassol - Amathus Sewerage Board, of which the implementation starts after 8 years of delays, caused by the financial crisis, as well as several appeals to the Bidding Authority.

The unit will serve approximately 25,000 citizens, 10,000 households, as well as major development projects in western Limassol, such as the under-construction casino - resort and other future big projects in Fasouri area.

"The project", as SBLA General Manager Iakovos Papaiaikovou stated "is estimated to be ready in a year and a half, around January 2021".

The construction of the station will alleviate the congestion of the sewer main line and will meet the needs of the western areas of the city. It will collect sewage from Zakaki, St. Spyridonas, Polemidia, the General Hospital and the Industrial Area A.

The cost of the project will amount to 42.9 million euros. In addition to the construction of the new station, the Joint Venture of Kruger A/S and Cybarco Contracting Ltd, will also undertake its maintenance for a period of ten years.

It is noted that, the new plant, will use the latest membrane technology to produce treated water suitable for its re-use for agricultural purposes.

The Fasouri Watermania Waterpark among Europe's leading waterparks

The Fasouri Watermania Waterpark, celebrating this year 20 refreshing years of fun, was bestowed the Travellers' Choice Award by TripAdvisor and ranked among Europe's Top 25 Waterparks.

TripAdvisor is the largest travel and tourism portal and search engine in the world and the ratings and awards it gives are the result of polls conducted over time by travellers and tourists from all over the world.

More specifically, this year, TripAdvisor users ranked the Fasouri Watermania Waterpark amongst Europe's top tourist destinations and, in particular, among the continent's 25 best waterparks.

Lanitis Aristophanous collaboration and participation in large projects

Lanitis Aristophanous, a company that operates in the trade of timber and its by-products, specialized building materials, sanitary ware, ceramics and parquet, continues its large-scale business collaborations by supplying specialised building materials for big projects.

Recently, the company contributed to the completion of large private student halls in Nicosia, as shown in the above pictures, being one of the projects main suppliers.

Carob Mill Restaurants Nominations for the Cyprus Eating Awards 2019

This year, Cyprus' most prominent gastronomic contest, the «Cyprus Eating Awards» (formerly known as «Time Out Eating Awards»), organized by the «Check In Cyprus» magazine, celebrates 15 years and are once again preparing the awards for the island's top restaurants.

"Check In Cyprus" has already announced nominations for the «Cyprus Eating Awards 2019» and five (!) F&B outlets of Carob Mill Restaurants have been nominated: Artima Bistro, Draught Microbrewery, Karatello Tavern, MEATING Grill & Co and Vecchia Napoli; each of them under a different category.

Support your favourite restaurant by voting online at <https://cypruseatingawards.checkincyprus.com/> or by sending an SMS or by calling as per the instructions on the side.

Let's Go Tours by Amathus, suggests a cruise in the autumn period

Cruise vacation... You have been thinking about it for a long time, but you don't know when the best time is to set sail. The answer is: Autumn! During this period, from September to November, cruise prices are more attractive and the weather is great!

Below, Let's Go Tours lists some very good reasons to plan a dream cruise in autumn.

1. Lower prices than peak summer season

During the autumn season, in addition to seasonal cruise special offers, airline and hotel fares are significantly lower compared to the peak summer season ones. Therefore, you can start your vacation sooner by extending your accommodation either before or after the cruise to enjoy some extra days at your destination.

2. Explore each destination with ease

A big advantage of a cruise vacation is that passengers can travel to many countries or destinations without having to pack for the next stop. At the beginning of a cruise, you have the luxury of unpacking only once. This means that the time you would spend on packing/unpacking can be used to explore destinations at your own pace. In addition, tourist attractions will certainly be less crowded and, thus, easier to explore.

3. Enjoy the wonderful weather

Autumn and spring are the two best times of the year to visit ports and destinations. Everyone would agree that a cruise is much more enjoyable when the weather is not too hot or too cold!

4. Ideal travel time for singles and couples without kids

At this time, since children are returning to school, cruises are not so popular for families but are more popular for adults without children. Therefore, the autumn season is ideal for singles, couples or groups of adult travellers.

#Lanitis Group: Like, follow, subscribe!

Everyone is aware of the impressively increasing development and impact that social media have on information and promotion (even) in the business sector.

It is an easily used means of information for new products, services, offers, events, awards and other news regarding the Lanitis Group companies.

Connect with all the Lanitis Group companies that have Social Media presence with just a simple click!

Note that most of the posts by the Lanitis Group companies on social media can be found through the #LanitisGroup hashtag.

«One photo, one story»

The above photo shows a 1968 advertisement flyer which informs that, on Saturday 20.4.1968, at 3:45 pm, "a football match between the teams of LANITIS vs HATZIPAVLOU companies will take place". The match is sponsored by the SOLEA sports outlet. Free Entrance."

Cybarco presents its new website

Following the announcement of a revived corporate identity, Cybarco has launched its new website (www.cybarco.com). Featuring its long history, unique projects and its flagship developments, the new website, is a sophisticated information platform for the company's extended properties portfolio.

The new website was designed and developed by the company's international partners with the main aim of improving the site structure, simplifying navigation and easy access to the content. Sofia Paraskeva, Marketing and Communications Manager at Cybarco Development Ltd, commented: "We wanted the new website to reflect our refreshed brand and our values. We have a long history, but we also have a bright future. As industry leaders, it is essential to us that visitors of our website get a sense of our pioneering, visionary approach from the very first moment. We want them to spot our projects' portfolio and to easily find the information relevant to their property search."

The Lanitis Group on YouTube

The Lanitis Group has created its own YouTube channel, which hosts recent and older video productions.

You can visit the Group's channel at [YouTube/Lanitis Group](https://www.youtube.com/LanitisGroup) to watch videos showing the Group's history, as well as videos concerning projects or subsidiary companies of the Group.
