Lanitis Group: a long-standing supporter of international investments

Recognising the strategic importance of attracting foreign investments to the sustainable development and international competitiveness of the Cypriot economy, Lanitis Group continues to actively support initiatives that strengthen the country's investment ecosystem. The inflow of high-quality international capital serves as a catalyst for innovation, business growth, and the creation of long-term value.

Within the framework of this long-standing commitment, the Group once again supported the prestigious International Investment Awards 2026 as a "Legacy Partner", organised by Invest Cyprus and held under the auspices of the President of the Republic of Cyprus.

The awards honour and showcase annually leading foreign investments that make a meaningful contribution to Cyprus' economic and social progress, highlighting projects of strategic significance across sectors such as technology, education, healthcare, real estate development, tourism, and shipping.

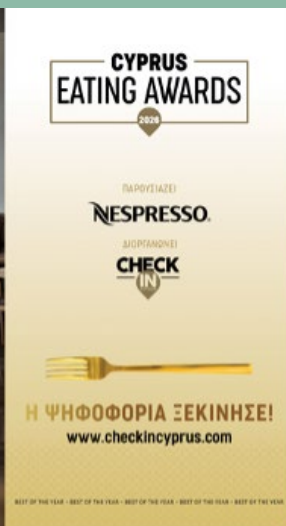

NZ4Y celebrated with the support of the Evagoras & Kathleen Lanitis Foundation

For the second consecutive year, the Evagoras & Kathleen Lanitis Foundation supported the environmental programme Net Zero For Youth (NZ4Y), as well as the awards ceremony for schools and students who stood out in this year's activities. NZ4Y is the result of a collective effort between CYMEPA, the Ministry of Education, Sport and Youth, and secondary school teachers and students.

With the central message "Building a Better Future", this year's awards ceremony highlighted the philosophy of NZ4Y: a programme that goes beyond environmental awareness, helping young people to develop knowledge, skills, character, and appreciation for the world around them.

More than 40 schools and over 1,000 students participated in the programme through quizzes, questionnaires, workshops, creative challenges, and activities that connected environmental knowledge with everyday life. This participation confirms that young people respond positively when learning becomes action, experience, and personal discovery.
